***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance: Claims 1-9, 11, 12, and 14-19 are allowed, in view of arguments presented in amendment of November 2004, on page 8, lines 10-16, in which applicant amended claims so that the private/public key pair is generated and transmitted from the client to the Public Key Infrastructure (PKI ) system. In addition the applicant amended independent claims so that PKI system signals "the client platform to create a private/public key pair". As indicated by the applicant the reference does not teach the claimed invention "The "authentication service's public key" disclosed in Wood does not correspond the public key recited in claim 1".
